

## Literacy

We will be looking at Henry VIII and his life. We will be then writing real life recounts about events throughout his reign. We will also be reading fictional stories about Tudors and creating our own stories using these as inspiration. We are going to be using inverted commas in our stories to help us to identify speech in writing. We are also going to be continuing to look at how we can use conjunctions in sentences to join two clauses together.

As the Tudors had a particular flair for writing poetry we are going to try and develop our skills as poets, looking at language features and structure.

## Maths

In maths, we will be continuing to look at multiplication and division. We will be using known multiples to help us to multiply and divide. We will also be looking at using formal written methods to multiply and divide. We will continue to use practical equipment to help us to solve these problems. In addition to this, we will also be starting to investigate pounds and pence, adding amounts and giving change. We will also be looking at using pictograms in our statistics.

## Music

In our Music lessons we will be using Charanga to help us to learn about Reggae music. We will be investigating the pulse, rhythm, Melody and structure of pieces of music.

## History

We will investigate Tudor food, the difference between the rich and poor  
How Henry VIII changed the monasteries  
We will look at how religion changed throughout the Tudor period  
We will also look at Tudor crime and punishment

## DT

We will be using a range of skills to evaluate, plan, design, make and evaluate purses.

## ICT

During our ICT lessons we are going to be using email and finding out how we can use email safely and securely. We will also be finding out why people choose to send emails and why they are an effective way to communicate. We will be learning how to add an attachment to an email.

# Terrible Tudors

Coral and Sapphire Class  
Spring 1 2021

## PE

In PE we will be looking at Hockey and Dodgeball. We will be developing our net and wall skills in order to learn to play both games together a team. We will be paying particular attention to how we can work well as a team and be part of an effective group.

## Science

In Science we will be studying biology. We will be finding out about humans and what kinds of foods we eat to give us the right amount of nutrition. We will also be finding out about the human body and our skeleton and the skeleton of other animals.

- identify that animals, including humans, need the right types and amount of nutrition, and that they cannot make their own food; they get nutrition from what they eat
- identify that humans and some other animals have skeletons and muscles for support, protection and movement.

## RE

In our RE lessons we will be looking in depth at Jesus and the kind of world that Jesus wanted and why he wanted that kind of world.
