

Literacy

We will be reading the text 'Around the world in 80 days' written by Jules Verne. We will be finding out all about Phileas Fogg and his wonderful journey around the world. We will be writing diary entries as if we were Phileas. We will be using conjunctions and prepositions to help us to express time and place. We will also be writing informal letters and thinking about the key features of these types of letters. In our letters, we will be using conjunctions to help us to extend our sentences by including more than one clause in our writing. In addition to this, we will also be writing our own story based on 'Around the world in 80 days' we will be using inverted commas to help us to punctuate direct speech in our stories.

Maths

In Maths this half term we will be thinking about fractions and how we can order fractions on a number line. We will also be thinking about adding and subtracting fractions. As well as fractions, we will be learning to tell them time to the nearest 5 minutes and 1 minute. We will be recapping on our knowledge of time from year 2 and trying to use our new and existing knowledge to think about duration of time and how we can measure duration.

Music

We will be listening to music and appraising different songs about friendship and kindness. We will be thinking about the pulse and rhythm of the piece of music and how we can represent this in a range of ways.

Geography

In our Geography lessons, we will be using maps and thinking about how we can use the symbols to help us to read maps. We will also be using 8 points of a compass to help us read maps with increased accuracy. We will also be finding out about the European countries, which are found in the northern hemisphere.

DT

In our DT lessons we will be finding out about passport covers and we will be learning how to use a basic stitch to attach two pieces of fabric together.

ICT

In our ICT lessons, we are investigating simulations and how simulations are used and why they are important for our everyday lives. We will also be looking at data handling and how we can use computers to create graphs using a given set of data. In addition, we will also be create branching data bases from the same given set of data

PE

During our PE lessons, we will be playing handball and using our skills of invasion games to help us to create mini skill based games using throwing and catching. We will also be doing OAA and orienteering skills during our other PE session each week. We will be using our skills of working together to help us to complete our challenges each week.

Science

This half term we are investigating plants and how plants grow. We will be thinking about the specific functions of the parts of a plant. We will find out about the requirements of plants for growth and life. We will also be investigating how water travels around a plant. In addition to this we will also be finding out about how pollinators pollinate plants and why they are important to our lives.

Summer 1 2021
Coral and Sapphire Class

RE

In our RE lessons we will be continuing to think about Judaism and how Jewish people show their faith and celebrate different festivals throughout the year.

Around the world in 80 Days
