

# HIGHER FAILSWORTH PRIMARY SCHOOL

## Meet the Governors – Clare Duff

After a break of two years, whilst I completed my MBA, I am excited to be re-joining the Governing Body of Higher Failsworth Primary School as a Local Authority Governor.

My two children have moved onto high school from HFPS in the last couple of years, so I am very familiar with the school, their areas of strength and areas where delivery needs developing.

I am employed by a Greater Manchester local authority delivering support and challenge to Children's social care departments. This role involves coaching, analysing data, peer support, securing and focusing resources, critical thinking and holding stakeholders to account for delivery of action and improvement plans.

I am passionate about improving outcomes for children and believe fundamentally that children thrive in environments where they feel safe and build trusted relationships with key adults.

I have professional experience in managing multi-million pound budgets, people management and development, commissioning services, safeguarding, project management and leadership.

I look forward to transferring my skill set and working with colleagues to strengthen the impact of the Governing Body.
